

Zone Change Information

What is a Zone Change?

A zone change is a proposal to change a parcel of land from one zoning district to another zoning district.

The Process

A Zone Change application normally involves having a pre-application meeting with County Planning Staff to discuss the application, answer questions, and resolve any issues at the front end of the process. Next, a completed Zone Change application and Environmental Checklist are submitted along with the appropriate application fees. A Notice of Application will be sent out for review to local and State agencies as well as neighbors within 300 feet of the subject property. The application is then advertised in the local newspaper and a public hearing before the Benton County Planning Commission is conducted at which time the public will have opportunity to comment. The Planning Commission will then make a recommendation to the Benton County Board of Commissioners who will review all the information submitted and determine if the zone change will be approved or denied.

Appeals

If the Planning Commission recommends that the request be approved or denied, the applicant or any party with standing may appeal the decision to the Board of County Commissioners by filing a written notice of appeal with the Secretary of the Planning Commission within fourteen (14) days from such recommendation.
