

## **CHILD DAY CARE FACILITY TYPE B INFORMATION**

### **What is a Type B Child Day Care Facility?**

Child Day Care Facility Type B means a dwelling unit (home) where a childcare provider cares for thirteen (13) or more children for a period of less than 24 hours a day, or a building or structure other than a dwelling unit where a childcare provider cares for any number of children for a period of less than 24 hours a day.

### **The Process**

A Child Day Care Facility Type B requires a Conditional Use Permit. A Conditional Use Permit normally involves having a pre-application meeting with County Planning Staff to discuss the application, answer questions, and resolve any issues at the front end of the process. Next, a completed Conditional Use Permit application is submitted, which will be sent out for review to local and State agencies as well as neighbors within 300 feet of the subject property. The application is then advertised in the local newspaper and a public hearing is conducted at which time the application will be heard by the Benton County Hearings Examiner and the public will have opportunity to comment. The Hearings Examiner will review all the information submitted and the application will either be approved with conditions and the use will be allowed on the property or the application will be denied and the use will not be allowed.

### **Criteria for Approval**

1. The proposed use has received all necessary approvals from Washington State regarding child care facilities.
2. The proposed use conforms with all applicable ordinances and regulations of Benton County that also apply to other permitted uses in the applicable zoning district.
3. The proposed use complies with all applicable requirements of the Benton-Franklin District Health Department, Department of Social and Health Services, and any municipality or agency providing water or sewer.
4. Signage is limited to no more than one non-illuminating sign with a maximum area of four (4) square feet and a maximum sign height of six (6) feet above grade. The posting of such sign is limited to the parcel on which the approved Type B Child Day Care Facility is located. On-street (inside the road right-of-way) sign posting and any sign posting that interferes with the line of sight for a road intersection are prohibited.
5. Off-street parking areas shall be provided so as to allow one (1) space for every employee and one (1) space for every five (5) children that will be attending the facility.
6. A driveway designed for continuous forward flow of passenger vehicles for the purpose of loading and unloading children.
7. The facility shall conform to International Fire Code (IFC), State, and local fire standards for fire prevention as now adopted or hereafter amended.
8. The facility must comply with International Building Code (IBC) requirements as now adopted or hereafter amended.

### **Conditions of Approval**

The applicant shall notify the Planning Department in writing when the conditions set forth by the Hearings Examiner have been completed. The Planning Department shall not issue the conditional use permit until those conditions have been met.

### **Appeals**

The decision by the Hearings Examiner is appealable under the terms and conditions as set forth in State law.

**Expiration** The Conditional Use Permit will be valid as long as the conditions set forth by the Hearings Examiner are met.
