APPLICABLE STANDARDS/ORDINANCES:

1. *Revised Code of Washington*
Chapter 36.70A.400 Growth Management—Planning by Selected Counties and Cities
Any local government, as defined in RCW 43.63A.215, that is planning under this chapter shall comply with RCW 43.63A.215(3).

RCW 43.63A.215(3) Accessory apartments—Development and placement—Local governments

Unless provided otherwise by the legislature, by December 31, 1994, local governments shall incorporate in their development regulations, zoning regulations, or official controls the recommendations contained in subsection (1) of this section. The accessory apartment provisions shall be part of the local government's development regulation, zoning regulation, or official control. To allow local flexibility, the recommendations shall be subject to such regulations, conditions, procedures, and limitations as determined by the local legislative authority.

2. *Benton County Comprehensive Plan*
3.3.2.3 Rural Land Use Designations

Rural Remote is the predominant rural land use in the County. This land is located mostly between the agricultural lands (GMA Agriculture), Rural Transition, and the UGAs. Rural Remote land use is intended to enhance and preserve the County's rural character, which includes rural open space, low densities, wildlife habitat, public open space for outdoor recreational activities, and rural home sites on which a limited range of agricultural activities may be conducted. Allowable density in Rural Remote land use is 1DU/5acres.

Section 2.7 Housing

HE Goal 1: Provide for a variety of residential uses and densities consistent with the rural character and lifestyles and a choice of housing types for people of all income levels.

Policy 7: Consider accessory dwelling units as an affordable housing option and look for flexible and innovative ways of integrating accessory dwelling units into single family residential zones.

Section 6.4.2 Housing Types

Accessory Dwelling Units. The zoning code permits the establishment of additional living quarters within single family residences to permit persons who, due to a disability or an infirmity, require the assistance of friends, relatives, or a professional nurse to remain in their home and for persons related to the occupant. These units help meet the needs of the disabled, infirm, or elderly in need of assisted care and are currently allowed by ordinance in all residential zones and the agricultural zoning district of Benton County.

3. Benton County Code (BCC)

Title 11 Zoning

Chapter 11.03 Definitions

(2) "Accessory Dwelling Unit" an additional room or set of rooms located within a single-family structure and designed, arranged, occupied, or intended to be occupied by not more than one (1) household as living accommodations independent from any other household and not exceeding 800 square feet in area.

11.42.020 Accessory Dwelling Unit (ADU).

An accessory dwelling unit shall be allowed on any real property located within unincorporated Benton County that is zoned for single family residences, except for those properties with an Industrial or Commercial zoning designation, thereby meeting the requirements of the Washington State Housing Policy Act of 1993 to incorporate provisions for accessory apartments in the County's zoning ordinance (Title 11 BCC).

(a) All accessory dwelling units authorized herein shall meet the following minimum criteria:

- (2) A single-family dwelling must be located on the parcel/lot where the accessory dwelling unit is to be located.

- (8) The accessory dwelling unit is not allowed to be used in the operation of a home occupation.
- (9) The accessory dwelling unit shall both meet and comply with Benton Franklin Health District standards.
- (10) The accessory dwelling unit shall meet and comply with Benton County

- Fire Marshal requirements for access.
- (11) The accessory dwelling unit may be permitted as either a ground floor or 2nd floor unit.
 - (12) Either the accessory dwelling unit or the single-family dwelling shall be occupied by a landowner(s) as his/her primary residence. The landowner shall maintain residency at least six (6) months out of the year and at no time receive rent for, or otherwise allow to occupy the landowner(s) unit when absent the rest of the year.
 - (13) If the accessory dwelling unit is connected to the single-family dwelling through a breezeway or similar means, the accessory dwelling unit shall be considered detached and compliance with subsection (c) below is required.
 - (14) The accessory dwelling unit shall comply with the applicable building, fire, critical area, shoreline, and zoning requirements of Title 3, 11, and 15 of Benton County Code.
 - (15) The accessory unit shall not be considered as a dwelling unit when calculating density.
 - (16) The accessory dwelling unit shall comply with requirements in subsection (b) and (c) respectively.
- (c) An accessory dwelling unit detached from the single-family dwelling shall comply with the following:
- (1) All detached accessory dwelling units require approval of a conditional use permit (see Chapter 11.50 BCC).
 - (2) A detached accessory dwelling unit shall comply with the following minimum design standards.
 - (i) The detached accessory dwelling unit may be constructed within an existing outbuilding or be a stand along structure, where the dwelling unit does not share a common wall with the primary single-family dwelling. If the accessory dwelling unit is connected to the single-family dwelling through a breezeway or similar means, the accessory dwelling unit shall be considered detached.
 - (ii) An outside entrance to the accessory dwelling unit is required and be placed at the side or rear of the building, when possible, to maintain the appearance and character of an accessory use.
- (d) The applicant shall record the permit issued for the accessory dwelling unit with the Benton County Auditor's Office. The recording fee shall be paid by the applicant for the accessory dwelling unit. The permit shall include a statement that the accessory dwelling may not be sold as a separate residence until such time as the accessory dwelling is located as the sole residence on a legally subdivided parcel.

Chapter 11.50 Variance and Conditional Use

11.50.040 Conditional Use

(a) Conditional Use Permit – General Standards. The conditional use permit application process allows the Hearings Examiner to review the location and design of certain proposed uses, the configuration of improvements, and the potential impacts on the surrounding area. The application process also allows the Hearings Examiner to ensure that development in each zoning district protects the integrity of that district. The notice, hearing, decision, and enforcement procedures are as set forth herein and in BCC 11.50.050.

Certain uses are classified as conditional uses because of their unusual nature, infrequent occurrence, special requirements, or potentially significant impacts to the

environment, public infrastructure, or adjacent properties, and/or possible safety hazards and other similar reasons.

Once granted, a conditional use permit may be transferred by a holder thereof after written notice to the Hearings Examiner; provided the use and location must remain the same and the transferee must continue to comply with the conditions of the permit and, if applicable, the requirements set forth in Chapter 11.51 BCC.

(d) Conditional Use Permit- Permit Granted or Denied. A conditional use permit shall be granted only if the Hearings Examiner can make findings of fact based on the evidence presented sufficient to allow the Hearings Examiner to conclude that, as conditioned, the proposed use:

- (1) Is compatible with other uses in the surrounding area or is no more incompatible than are any other outright permitted uses in the applicable zoning district.
- (2) Will not materially endanger the health, safety, and welfare of the surrounding community to an extent greater than that associated with any other permitted uses in the applicable zoning district.
- (3) Would not cause the pedestrian and vehicular traffic associated with the use to conflict with existing and anticipated traffic in the neighborhood to an extent greater than that associated with any other permitted uses in the applicable zoning district.
- (4) Will be supported by adequate service facilities and would not adversely affect public services to the surrounding area; and
- (5) Would not hinder or discourage the development of permitted uses on neighboring properties in the applicable zoning district as a result of the location, size or height of the buildings, structures, walls, or required fences or screening vegetation to a greater extent than other permitted uses in the applicable zoning district.

It is the applicant's burden to present sufficient evidence to allow the above conclusions to be made. If such evidence is not presented or all necessary reasonable conditions are not identified by the applicant so as to allow the Hearings Examiner to make the conclusions required above, the conditional use application shall be denied.

PUBLIC NOTICE:

The Public Notice Requirements for this application as per BCC 11.50.050(b) are as follows:

1. The Planning Division shall provide written notification for an open record hearing, subject to the rules and regulations set forth in RCW 36.70. Written notice shall be mailed at least twelve (12) days in advance of the open record hearing to the applicant and the owner of the parcel(s) to which the proposed variance or conditional use permit would apply, and to all owners of real property, as shown in the records of the Benton County Assessor, located within a distance of three hundred (300) feet of any portion of the applicable parcel, provided that if the owner of the parcel for which the proposed variance or conditional use permit is requested owns another parcel or parcels adjacent the parcel at issue, notification shall be mailed to owners of real property located within three hundred (300) feet of any portion of such adjacent parcels as well. Failure to receive the notice shall not invalidate any proceedings or decision in connection with the proposed variance

or conditional use permit. Notices addressed to the last known owner of record as shown on the County Assessor's records shall be deemed proper notice to the owner of such property; and,

2. By publication of a legal notice in a newspaper of general circulation in the County at least ten (10) days prior to the open record hearing date.

Is the ADU being sub-fed from existing house service? If not primary line extension will be needed to get a transformer within distance of service size. 200amp service requires a transformer within 200ft of meter base. Contact Benton PUD with power needs.
