

# **BENTON COUNTY TAXES FOR THE YEAR 2025**

**Bill Spencer, Benton County Assessor**

# Office of the Assessor

Benton County, Washington

## A MESSAGE FROM YOUR COUNTY ASSESSOR

I would like to thank you, the public, for the confidence you have placed in our office. I have made a commitment to keep our office transparent and available to the public and I intend to promote that concept by continuing to update and improve the information available to you.

The primary role of the Assessor is to identify and determine the value of all taxable real and personal property in Benton County. These values are used to compute property taxes for the county, its cities, libraries, fire departments, roads, schools and other special districts.

My role as Assessor is not to determine the dollar amount of taxes required nor is it to bill or collect taxes. The taxpayers, state limitations, and assessed value determines the tax rate for each district. The County Treasurer bills and collects the required tax.

It is my responsibility, together with my staff, to ensure that all property owners are treated fairly in accordance with our state laws. It is our sincere desire to serve and support you in an efficient and courteous manner.

We have several programs available to assist you as property owners, and our entire staff is eager to assist you in acquiring any information you desire pertaining to the functions and responsibilities of this office. We are here to serve and support the citizens of Benton County.

Please contact our office for more information. You can reach us at 509-735-2394 or 509-786-2046 Monday-Friday, excluding holidays, or visit our website at [www.co.benton.wa.us](http://www.co.benton.wa.us).

Sincerely,  
Bill Spencer

## This is How Your Assessor Appraises Property

Presently the Assessor is required by law to physically inspect and value all taxable real property in the County at least once every six years with statistical update annually where needed. When the Deputy Assessor comes to your home or place of business, they may use the comparative sales, cost, or income method. The different approaches to value are explained below.

### The Comparative Method

Simply stated the appraiser locates properties that have recently sold, analyzes the price paid and determines the percentage of those sales that is true and fair value. Using these properties as a guide, the appraiser is able to determine the true value of similar properties by comparing them to each other. He or she is as sure as possible by inspection that the characteristics and features of each property are similar.

### The Cost Method

This is sometimes referred to as the Replacement Cost, and by using this application the appraiser determines how much money would be necessary, using current labor and material costs, to replace a given building with another one having the same utility. If the building being appraised is not new, the appropriate depreciation is subtracted to arrive at the true and fair value in its present state.

### The Income Method

This method is generally used when the property being appraised produces an income, because its value is usually in the ratio of income to the capital investment. When determining the value of Income Producing Property the appraiser carefully considers good management and realistic operating expenses for this type of property.

## SENIOR CITIZEN AND PEOPLE WITH DISABILITIES TAX RELIEF

A reduction of tax is available for senior citizens 61 years of age or older as of December 31<sup>st</sup> of the year before the tax is due who meet the income requirements. It is also available for disabled persons who are retired from regular gainful employment because of such disability or for a surviving spouse/registered domestic partner who is 57 years of age or older and the spouse/registered domestic partner had been receiving the exemption at the time of death or for veterans with a 100% service connected disability.

## OPEN SPACE TAXATION ACT (RCW 84.34)

This law directs the taxing of farm and agricultural land based on income derived from the earning or productive capacity of the land which reflects its current use rather than the highest and best use allowed under the applicable zoning.

To secure the benefits from this act, the owner must submit an application along with a filing fee by December 31<sup>st</sup>. Once the land is classified as farm and agriculture property, the owner does not have to make further application. However, the Assessor's Office will make periodic income and physical inspection checks to ensure the continuing eligibility for this classification.

This land classification can be transferred when the property sells with the new owner assuming the liability. If a change of use is made by the owner (such as dividing up the land to sell for the building of homes) the assessor's office must be notified within 60 days that a change has taken place. The assessor must then impose an additional tax because of the change in use. This additional tax is calculated on the difference between the taxes paid under the current use value and the taxes that would have been paid on that land at market value. This calculation applies to the past seven years plus a pro-rated calculation of the current year tax liability along with interest on this additional tax at the rate of one percent per month plus a twenty-percent penalty.

## PERSONAL PROPERTY

Personal property must be appraised for tax purposes. This tax deals mainly with farms and commercial interests. The value of personal property is determined by the cost approach. For example, the value of machinery and equipment in a manufacturing plant may include such information as unit cost of the item (new or used), freight and installation at the point of use. Using Department of Revenue depreciation tables, deductions are then allowed from the total cost to arrive at the prevailing market value. The deadline for filing your annual personal property listing is April 30 of each year.
