Summary / Background Information

Benton County is the implementing agency for the County-wide Solid and Moderate Risk Waste (MRW) plans. Solid Waste Management Local Solid Waste Financial Assistance (SWMLSWFA) is available for a two-year period: July 2025 – June 2027 Grant funding cycle. The attached agreement SWMLSWFA-2025-BeCoSW-00283 between the State of Washington Department of Ecology and Benton County Solid Waste is for a maximum of \$684,634.67, with a 75% match from State funds (\$513,476.00) and a 25% match from County and participating City funds (\$171,158.67). City participation is based on population numbers.

This funding will reimburse expenses for the operations of the MRW facility located at 1709 South Ely Street and the hosting of Household Hazardous Waste (HHW) mobile events for residents in outlying areas around the county. In order to receive the funds, the County must execute an agreement with the Department of Ecology. The agreement has been reviewed by the prosecuting attorney's office.

Fiscal Impact

There is no impact on current expense monies, as the Solid Waste Department collects a waste collection surcharge on garbage collections in unincorporated Benton County to fund its activities. The Solid Waste fund will contribute \$29,702.33 over the two-year period, if all grant funds are spent.

Recommendation

We recommend the Board of Commissioners approve and sign the agreement SWMLSWFA-2025-BeCoSW-00283 between the State of Washington Department of Ecology and Benton County Solid Waste.

Suggested Motion

I move to approve the local solid waste financial assistance grant between the State of Washington Department of Ecology and Benton County Solid Waste and authorize the Chairman or Chairman Pro tem to sign said agreement.

Signatures Required on Agreements/Contracts

RECIPIENT is participating in the PaintCare product stewardship program and will be implementing special collection events. ECOLOGY encourages RECIPIENT to contact PaintCare to coordinate their presence at events.

RECIPIENT must comply with the materials review process described in guidelines if intending on requesting reimbursement for any costs to produce and or distribute materials.

RECIPIENT may purchase or replace recycling related equipment with written pre-approval by ECOLOGY.
